

## Všeobecná úverová banka, a.s. - Software licences

Unicorn Business Systems SK s. r. o. company has successfully delivered software licenses and support to Všeobecná úverová banka, a.s.

### Success story

As part of the project, we ensured the delivery of licenses from leading technology companies:

- IBM
- Oracle
- Red Hat
- Progress
- Elastic
- HCL
- Guardsquare

Our company ensured not only the delivery of licenses but also professional support for their deployment and activation. The implementation included consultations, technical assistance, and advisory services in accordance with the requirements of VÚB Banka.

The project was successfully completed within the specified timeframe and in accordance with the agreed conditions. The collaboration was conducted at a high professional level, confirming our ability to deliver reliable and high-quality IT solutions for the financial sector.

Statement from  
a representative of

Všeobecná úverová banka,  
a.s.

*I would like to express my satisfaction with the delivery of software licenses we received. The entire process was efficient and professional. The licenses were delivered within the agreed timeframe and in accordance with our requirements. Communication with the supplier was clear and prompt, which facilitated the entire transaction. Overall, I highly value this collaboration.*
